

Viewing Properties

Browse properties for sale on our website, at open houses, and with private tours with our agents.

We arrange private viewings at properties and accompany you when visiting open houses. Providing guided tours of neighborhoods allows us to refine your search criteria and focus on your specific needs. Viewing properties together allows us to provide important details including zoning, permitted remodeling, deed restrictions, physical upgrades, easements/lot dimensions and many other specifics.

*Visit **www.CoastalPacificRE.com** to search every property for sale in the MLS.*
